Born in Madrid (Spain) on December 26, 1980
Spanish nationality

EXPERIENCE

Since 2015   **Cloud Systems Engineer** at Delivery Hero SE, Berlin
- Capacity planning and management of the Infrastructure on a set of 10+ AWS accounts with Terraform.
- Operation of thousands of AWS resources, including +100 Aurora clusters and +20 EKS Kubernetes clusters.
- Consulting role for the +300 Developers on the process of getting new applications Live.
- In these 7 years, I have been part of several successful architectural migrations that have helped the company grow from tens of thousands orders per day to more than 2 million. Our path went from VMs on EC2 to our own K8s, then to EKS, improving our IaC with Terraform to provide the required scalability, and finally moved to a Self-service model to provide flexibility for the Developers on top of it.

2011 to 2015,   **Monitoring coordinator at the Sysop Team** in Freenet Digital GmbH, Berlin

2011,   **ICT Project Leader** in Casa do Caminho, Rio de Janeiro, Brazil

2009 to 2010,   **Technical advisor in the Customer Service team** in Strato AG, Berlin

2007 to 2008,   **Database Systems architect** in Everis Spain; Project: BBVA

2004 to 2007,   **Systems technician** in Accenture Spain; Projects: BIBM, R&SA, Bank of East Asia

EDUCATION
